CHICAGO STRIKE IS WON BY EMPLOYERS

After Long Struggle the Teamsters Give Up Fight.

RUSH TO GET THEIR PLACES

The Employers Announce that They Cannot Take Back All of Them. Some Few Drivers Still Hold Out Against Settlement.

Chicago, July 22.—Teamster strikers, who last night gave up their long struggle against the employers, broke ranks today in a stampede for work. The barns of the strike affected firms were besieged by men who hame been idle for months and whose places have been filled by nonunion men. The employers in many cases announced that there were vacancies for only a few of the 4,000 men that quiet work not more than 1,400 or 1,500 will be reinstated during the next few days. The coal teamsters and truck drivers did not join in the rush for re-employment today.

The order of the teamsters' joint council which authorized the surrender was for all men on stock to ask for reinstatement this morning. Both the truck drivers and the coal teamsters balked at this and planned to hold meetings tonight and "fight it out till they can go back to work like union men." However, the boycott against business houses has been lifted officially by the action of the council and it is expected there will be no more sympathetic strikes of teamsters.

Nearly every one of the strikers at the department stores filed application for reinstatement. In many cases the men were put towork immediately. At one store a number of men who obeyed the order to strike stood in line today and signed applications forfeiting their right to wear buttons of their union exposed. The express companies which fought their battle virtually alone and apart from the others are not to take back any of their former employes.

Police protection will not be withdrawn for a few days, at least, as clashes between nonunion men and unionists are feared when the latter return to work.

READY FOR PEACE ENVOYS.

All Arrangements Made to Entertain the Japs and Russians.

New York, July 22.—Arrangements for the accommodation of the Russian and Japanese peace envoys during their stay in New York city have been completed. Twenty of the choicest rooms in one Fifth avenue hotel have been engaged for Baron Komura and his suite. The Russian envoys will be cared for at another hostelry near by on the avenue.

No definite plans for any form of entertainment in honor of the Japanese envoy who has just started east from Seattle, will be made until the party arrives and Baron Komura is consulted. With the exception of some small entertainments being planned by a few of Baron Komura's most intimate friends, among them Baron Kaneko, who was a classmate of his at Harvard, it is not thought likely that the party will accept any social invitations until after the conclusion of the peace conference at Portsmouth.

New York, July 22.—E. A. Drake, secretary and treasurer of the Panama Railroad company, has been appointed assistant to President Shonts, who sailed yesterday for Panama. Mr. Drake will exercise all the functions of president of the Panama company during the absence of Mr. Shonts.

GOVERNMENT IS DEFEATED.

All England in Excitement Over Irish Land Commission.

London, July 22.—The house of commons sat barely half an hour today and then adjourned until Monday to await the government's decision regarding its future course of action in view of the defeat of the ministry last night on John Redmond's motion to reduce the vote for the Irish land commission.

The house was packed in every part. Much excitement was visible on all sides and there was a disposition to view the defeat of the government as more serious than it was generally regarded in the early hours this morning.

Immediately after the house had assembled, Sir Henry Campbell-Bannerman, the Liberal leader, moved its adjournment, declaring that it would be unseemly under the circumstances to proceed with business while the government was considering its position. Premier Balfour, however, declined to adjourn the house until the bill dealing with the differences of the Scottish United Free church and the free church had passed. This was quickly accomplished, the house rose and the excited members swarmed into the lobbies eagerly discussing the probable decision of the cabinet which has been summoned to meet this afternoon.

ROOT VISITS THE PRESIDENT.

Chief Executive and Secretary of State Confer About Matters.

Oyster Bay, L. I., July 22.—The Identical note from the Chinese foreign office to the powers neutral in the pending far eastern conflict has been received by President Roosevelt. This note will be taken up and considered by the president and Secretary Root at their conference today. The attitude of the United States government will assume toward China's protection, cannot be now predicted. That the president and Secretary Root are considering the question now is beyond doubt. It was intimated today that the matter is of such delicacy that public discussion of it in an offhand way just now is undesirable.

Secretary Root after taking up in a formal way the threads of the state department work in Washington came here today to consider with the president some of the questions now pending. He will pass the day and night at Sagamore Hill and perhaps a part of tomorrow. He arrived here in time to take luncheon with the president. Dr. Lyman Abbott, of New York, came on the same train. He also was a guest of the president and Mrs Roosevelt at luncheon.

Prices of Iron Not Changed.

New York, July 22.—Statements made in the trade circles are to the effect, says The Journal of Commerce, that the Eastern Bar Iron association has dissolved. This was the result of the manufacturers at their meeting on Wednesday, when they decided to make no change in prices, met as individuals and not as members of the Eastern Bar Iron association. There is still, however, a gentlemen's agreement in regard to production and prices. Under the pool arrangement it is understood that the manufacturers were under penalty for violation of agreement, but in consequence of the dissolution this does not hold at the present time.

Lost Life While Bathing.

Sylvania, Ga., July 22.—Reid Morel, the 10-year-old son of Hon. J. J. Morel, mayor of Sylvania, was drowned in a creek near here. With two other boys his own size, he was in bathing. He got beyond his depth and was drowned. The other boys became frightened, and ran away and could not tell about it for several hours. The body was recoverd late in the night.

ONE MAN KILLED; FOUR PEOPLE HURT

Is the Awful Result Of An Automobile Accident.

MACHINE COLLIDED WITH BUGGY

Was Traveling Forty Miles an Hour When Accident Occurred—Owner Was Most Reckless Auto Drivers in the Country.

Los Angeles, Cal., July 22.—M. T. Hancock, the well known millionaire plow inventor and manufacturer is dead, as the result of an automobile accident in this city late last night in which he, his son and daughter were seriously injured. He died at the receiving hospital without recovering consciouness.

The party, in a large machine, were traveling 40 miles an hour on South Main street, near Forty-eighth street, where the machine collided with a buggy. The car swerved to the curbstone and crashed into a telephone pole, demolishing it and hurling the occupants to the street.

Following are the injured:

Mrs. M. T. Hancock, cut and seriously bruised.

Eugenia Hancock, left arm broken, concussion of the brain.

M. T. Hancock, Jr., severely cut and bruised.

J. Saul, dairyman, scalp wound and internal injuries.

Saul was the driver of the buggy into which the automobile dashed. He was thrown from his vehicle to the street and severly hurt. M. T. Hancock, 16-year-old boy, was driving the machine at the time of the accident. With him in the front seat was his younger brother, Newton Hancock, who was the only member of the party to escape unhurt. In the rear seat was Hancock, his wife and daughter. All were hurled to the pavement by the terrific impact of the machine. They were promply removed to the receiving hospital. The machine was wrecked. Hancock was known here as one of the most reckless automobile drivers in the city. He had been in the police court on different occasions for driving his machine in excess of the speed limit and on one occasion a few months ago, was fined $150 for fast driving. He paid his fine at the time with a check which he insisted should bear the inscription across its face:

"For driving an automobile 60 miles an hour in th ecity of Los Angeles."

Strikers Charged with Rioting.

New York, July 22.—Fifty striking members of the United Garment Workers of America have been held in the Tombs prison on charges of rioting. The prisoners recently quit their jobs in a Lipsenard street cloak factory. Yesterday they made a desperate attack on a factory where they declared work was being done for their old employers. Cloaks sent to the latter were destroyed. The police reserves hurried to the scene and after a sharp encounter put the strikers to rout, capturing 25. The prisoners declare they caused no damage, but merely visited the factory to induce the workmen there to strike in sympathy.

Crusade Against Cigarettes.

New York, July 22.—A campaign has been inaugurated by Commissioner Wathern against the use of cigarettes on Ellis Island. Their sale has been forbidden and the commissioner has caused it to be known among the employers that cigarette smokers are not wanted. Men on the island say that the male immigrants are nearly all addicted to the habit.

MINISTER ALLEN COMES HOME.

He Voluntarily Retires as Envoy to Korea—Talks of Conditions.

Seattle, Wash., July 22.—Dr. Horace Newton Allen, retiring envoy extraordinary and minister plenipotentiary from the United States to Korea was a passenger on the steamship Minnesota on his way to Washington to surrender his portfolio. Dr. Allen has been minister eight years and in the consular and diplomatic service for fifteen years. He has resided in Korea twenty-one years. He stated that he retires voluntarily, his term of office having expired. Discussing the influence of war on Korea, he said:

The trade of the country has not suffered. As a matter of fact, trade in the aggregate has increased. The first battle was fought at a point 25 miles from the city, in the harbor of Chemulpo and three Russian warships were sunk. After that nothing unusual occurred in Seoul save the marching of troops through the city to the north. The city was always full of Japanese soldiers, but they were under splendid discipline and perfect order was maintained.

Hatpin Causes Man's Death.

Detroit, Mich., July 22.—Fred Montgomery, a waiter of Sandwich, Ont., who was taken to St. Mary hospital, July 6, with a wound in his breast made by a hatpin, died Thursday. At the post mortem six inches of the pin was found imbeded in his breast, part of it actually in the man's heart. The piece of pin had begun to rust, and the physicians marvel that Montgomery lived so long. When taken to the hospital from a lodging house, Montgomery said he received the wound by accident, claiming that a woman with whom he had been in a cafe had slipped and lurched against him as she was planning on her hat, causing the wound.

Secretary Loomis in London.

London, July 22.—Assistant Secretary of State Loomis on his return to London after a trip to the continent has heard nothing of the alleged probability of his appointment to represent the United States at the international conference of Morocco. Mr. Loomis expected to remain here a week longer and will then go to the continent and pursue his investigation of the administrative affairs of the various legations. He was a guest of Ambassador and Mrs. Reid at a luncheon party at the Dorchester house this afternoon.

Bank Officials Keep Quiet.

Kansas City, July 22.—A statement of the affairs of the City National Bank of Kansas City, which closed its doors yesterday was still unobtainable today, either from Receiver Ames, the bank officials or their attorneys. The condition at the other banks, apparently, were normal and there was no appearance of a run on any of them. Only a fe wpersons stood about the doors of the failed bank.

COOLER WEATHER IS NOW PROMISED

Bureau at Washington Reports Much Better Conditions.

RAIN VISTS MANY SECTIONS

From Abnormally Hot to Abnormally Cold Is a Peculiar Circumstance. Death Rate In Chicago From Heat Has Been Large.

Washington, July 22.—The United States weather bureau today gives most encouraging information as to the weather conditions. The abnormally hot to the abnormally cool seems to be the general rule.

The temperature continues to fall slowly in New England the middle Atlantic states, the lake region and the Ohio valley. In the lake region the fall in temperature has now continued upwards of 36 hours; as a result the abnormally cool weather is reported this morning from the upper lake region with light frost at Escanaba. The weather also has turned cool in the Dakotas, the Missouri and upper Mississippi valleys. Rain has fallen in eastern North Carolina, eastern Missouri, Southern Indiana and southern Illinois, Kentucky and western Tennessee; South Dakota, western Nebraska and there have been scattered thunderstorms in the Rocky mountain regions and the southwest. For Friday night and Saturday fair weather is indicated, except in the Ohio valley, the southern portion of the middle Atlantic states and North Carolina, where showers are probable, the temperature will not change materially in southern districts. It will be slightly cooler tonight in the east portion of the middle Atlantic states and a continuance of the present cool weather in the Ohio valley and lower lake region for the next 36 hours May be anticipated.

BIG FLOOD IN KANSAS.

One Life Reported Lost and Great Damage Wroght.

Joplin, Mo., July 22.—The flood waters of Spring river reached the big dam at Lowell, Kans., early today and with all the flood gates open the waters reached within two feet of the top of the dam.

The gauge showed 28 feet of water. Half a mile above the dam the water broke out of the banks and flooded Vark, a little village, with three feet of water.

The wagon bridge across the river at Lowell was washed away and the bridge of the St. Louis and San Francisco railway is expected to go in time. Telegraph and telephone services along the river practically no opportunity to notify the people of the danger of remaining in their homes and they sought shelter on higher ground. So far only one death has been reported, that of Calvin Rude, of Carthage, whose body has not yet been found.

It is estimated that the damage to crops and live stock will amount to half a million dollars.

Son Arrested for Patricide.

Spartanburg, S. C., July 22.—John Mull died at Spartanburg Wednesday night as a result of a wound which he received on the head several days ago. His son [illegible] is being held, charged with the blow, though this has not been fully established. The coroner claims that the wound on the head was caused by a fall. Torpedo Boats.

Torpedo boats do not ram the vessels against which they operate; they simply discharge self propelling torpedoes which, if they strike the vessel, explode and sink or otherwise damage it. Then, if not sunk by the enemy's fire, the torpedo boat runs away and after taking on more torpedoes is ready for service again. Torpedo boats are built very light and of enormous speed. They cannot resist gun fire and are easily sunk if hit even by comparatively light shot; therefore they operate to best advantage in the night, so that the threatened fleet has to be very wide awake with its searchlights and its light guns.

An Odd Simile.

A Scotch minister who used similes that would bring home to the rough characters around him the truths he sought to impress was once denouncing the ingratitude of man for all the benefits conferred on him by Providence.

Will Not Leave Gainesville.

Editor Sun: I am informed that some of my friends are under the impression that I intend leaving this county and locating in Tampa.

This is evidently based upon the fact that Hon. Robert W. Davis, formerly Congressman of this district, has recently moved to the metropolis of South Florida, the error doubtless being due to similarity of name.

I have no intention of parting with the friends I have in this county, and am now I am too favorably impressed with the future of old Alachua to leave it.

Respectfully,
Robert H. Davis.

HELD FOR CIRCUIT COURT.

Young N. Slaughter Must Face Grand Jury Upon Charge of Murder.

The preliminary trial of N. Slaughter, charged with the murder of Lon Sessions at Newnansville, Saturday night of last week, was held at the court house in this city Saturday. The trial attracted a great deal of attention, all parties interested having friends who came to attend the trial, in addition to the witnesses.

After hearing the testimony in the case and the argument of Attorney J. M. Rivers for the defense and B. A. Thrasher for the State, Judge Mason, before whom the preliminary was held, required the defendant to give a bond of $1,000 for his appearance at the next term of the circuit court.

The defendant having failed to give the required bond, is yet in jail.

The evidence is purely circumstantial.

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by all druggists.

Monteil Taken to Ocala.

Deputy U. S. Marshal T. Bishop of Ocala arrived in the city Saturday, having come for Manuel Monteil, the Cuban who was arrested upon instruction from Officer Bishop by Deputy Sheriff J. H. Granger Friday.

It appears that the charge against Monteil is that he has been handling cigars and tobacco without paying the required revenue license. He has been conducting a small cigar factory on South University street for several years and it is said has been peddling cigars without the revenue license.

"The Delight of Mankind."

Titus the Roman emperor, was entitled "the delight of mankind." Titus' beneficence was unbounded, and it so happened that during his brief reign there was the most urgent need of its exercise. In the first year occurred the great eruption of Vesuvius, overwhelming Herculaneum and Pompeii and ruining numerous other towns and villages. The next year a fire broke out in Rome, which raged three days, causing great destruction, and in the tracks of these calamities followed a dreadful pestilence. Titus dealt out gifts with lavish hand to the houseless and ruined sufferers. He even despoiled the palaces of their valuable ornaments to obtain money for distribution and schemed and planned to furnish occupation for them. He was now the idol of his subjects, the "love and delight of the human race," but, unfortunately for that part of the human race over which he ruled, in the commencement of the third year of his reign he became suddenly ill and died at his patrimonial villa in the Sabine country.

Noted Dead In Trinity Churchyard.

Alexander Hamilton is buried in Trinity churchyard, at the head of Wall street, New York, and the grave is marked by a conspicuous white marble monument near the Rector street station of the elevated road. His wife, who lived until 1854, fifty years after his death in the duel with Burr, is buried beside him. Albert Gallatin, who succeeded Hamilton as secretary of the treasury, lies only a few feet away, and near by is also the grave of Robert Fulton, inventor of the steamboat. Another famous occupant of Trinity churchyard, whose monument is near the Broadway gate, is Captain James Lawrence of the United States navy, commander of the frigate Chesapeake, who fell in battle with the British ship Shannon June 1, 1813, in the thirty second year of his age. As he fell upon the deck he cried to his subordinates, "Don't give up the ship!"

A Losing Dream.

"I made a nice idiot of myself the other morning," said the commuter, who is paying teller in a savings bank. "My wife was afraid I'd miss my train, and she got me by the shoulder and shook me, telling me that it was time to get up. I got about half awake, and, somehow, I thought I was at my window in the bank with a long line of women awaiting their turn. The one at the window was handing me a check, and, from force of habit, I said:

"'How much money do you want?'

"You know, most women who present checks want to draw some and deposit the rest. Well, what do you think the wife did? Quick as a flash came her answer to my 'dopy' question:

"'Five dollars will do.'

"She got it, but I hope I won't dream any more."—New York Post.

An Eccentric Painter.

William Willard, well known as the painter of Massachusetts' governors, was very eccentric in his ways. His special aversion was the attempted purchase of his many old relics of furniture by people of wealth. A New York woman visiting in the vicinity of Sturbridge, hearing that the old artist possessed a beautiful colonial mirror and a rare clock, tried to buy them. Mr. Willard seemed to readily agree to the sale, but when asked when it would be convenient to have them packed replied, "Not until after the funeral." "Whose funeral?" asked the visitor. "Mine," replied Mr. Willard, with a chuckle.

An Early Railroad.

An old inventory of the Mohawk and Hudson railroad, now a part of the New York Central and Hudson River railroad, dated Jan. 1, 1833, gives the following as the total rolling stock of the road at that time: Three locomotives (the John Bull, the De Witt Clinton and the Experiment), three carriages, accommodating twelve passengers each; nine, accommodating nine each; two, accommodating six each, and three, accommodating eighteen each, a total capacity of 183.—Four Track News.

The Change of a Letter.

"Business men should be careful," writes a correspondent of a London newspaper, "to read their typewritten correspondence before committing it to the post. I have received a typewritten letter from a gentleman of German extraction who informs me that he is a 'wholesale tobacconist and cigar imposter.'"

Diplomacy.

"What did papa say?"

"He showed me the door."

"And what did you say?"

"I said it was certainly a very handsome door, but not what I had come to talk about. That made him laugh, and a minute later you were mine."

ALACHUA COUNTY AND STATE FAIR

People Should Take Advantage to Show What Alachua Is Worth.

RESOURCES ARE DIVERSIFIED

They Comprise Everything from Raising of Commonest Crops to the Most Difficult in Manufacturing, and the World Should Know It.

Jesse E. Burtz, recently appointed vice-president for Alachua county for the Florida Mid-Winter State Fair which will be held at Tampa from November 15 to 30 of the present year, is receiving encouragement from the more progressive class in every section of the county. Mr. Burtz has received several letters of congratulation, with the assurance that the writers would do everything possible to assist him in securing a creditable exhibit at the State Fair, which will be the largest undertaking of its kind ever attempted in the South.

It is the duty of the people of Alachua county to make a fine display at the State Fair. Being held at the season which has been scheduled, thousands of Northern homeseekers will be there and will be governed largely by what they see on display in the various exhibits. Alachua county is one of the richest in the State in agriculture, horticulture, truck growing, manufacturing and industry, and there is no reason why a first-class display of our products should not prove a drawing card in the matter of bringing this county into prominence and inducing settlers to come here.

"There is no doubt but Alachua county is one of the most diversified not only in Florida but in the South, when it comes to industries. The farmer here is happy, because the conditions are such that he can raise a good crop of everything he requires for the support of his family. The manufacturer, especially of wooden articles, is content because the forests abound in almost every wood imaginable, which can be secured at a nominal price. The horticulturist is satisfied, because not only the tropical, but the semi-tropical fruits, can be grown to advantage and shipped to the Northern markets, where in many cases they bring fabulous prices. Taking it all in all, Alachua county is one of the richest in the State of Florida, and if the people do not demonstrate this fact before the world at the State Fair, no one will be to blame but themselves.

There has been appropriated by the State Legislature $15,000 for premiums at this fair. There will be a premium of $2,000 for the best general county exhibit, and there is no reason why Alachua county should not win this prize, since her interests are so diversified. An effort will be made to induce the county commissioners at their next meeting to appropriate a sufficient sum to pay for the collecting of the Alachua county exhibits. A number of fair commissioners, comprising two or three leading citizens of the various sections of the county, may also be appointed to look after the matter, and it is hoped that Alachua county will have a fine display—not for the benefit particularly of the State Fair, but for her own good and the good of her people.

Mr. Burtz would be glad to hear from any person who will be willing to assist him in the matter of either furnishing or securing exhibits of whatever nature.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars' outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

Attention, Voters.

We wish to inform the patrons of The Sun that no votes are allowed in the Library contest on money paid for advertising in The Sun. Only those who pay the sum of $1.25 or over on subscriptions to The Daily Sun or those who pay cash for job printing will be allowed to vote.

Those who pay $1.25 will be allowed 75 votes for the organization of their choice; $2 50 entitling them to 200 votes, and $5 will entitle them to 500 votes.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

MANY NEW COUNTIES WANTED.

Committee Now Hearing the Schemes. Will Vote on Anti-Pass Bill.

Atlanta, July 22—Two proposed new county schemes were given a hearing Thursday afternoon before the house and senate committees on new counties.

The first of these was the proposed new county of "Dixie." It is proposed to create Dixie county from parts of Burke, Bulloch, Emanuel and Screven, with Mullen, which will be about in the center, as the county site.

The new county of Dixie, it is stated, will have about 500 square miles and a population of about 18,500.

Anti-Free Pass Bill.

It is safe to predict that a final vote will be reached in the house Friday on the anti-free pass bill by Mr. Hall, of Bibb.

Mr. Anderson, of Chatham, admitted Thursday towards the close of the debate, that the opposition had pursued filibustering tactics to a certain extent, but said this would no longer be done, and that his side was willing for the measure to come to a vote.

The leaders of the two sides, Mr. Hall and Mr. Anderson, will reach an agreement before the house meets Friday morning as to a time limit on the debate, and as soon as the talk is ended a vote on the bill and amendments will be taken. Mr. Hall says twenty minutes is all the time he wants. Mr. Anderson wants a little more than that, but will not take up time unnecessarily.

In the Senate.

An important measure by Senator Hogan providing for a veterinary surgeon in the department of agriculture, whose services shall be at the call of the farmers or live stock raisers of the state when any live stock is threatened by diseaser, passed the senate Thursday after some discussion.

When the bill was read for the third time and put upon its passage Senator Candler, while he favored the measure, stated that he believed it was necessary that it be amended so that it would not appear that the senate was initiating legislation providing for an appropriation.

Cotton Brings 23 Cents a Ponud.

Albany, Ga., July 22.—Deal Jackson, the first bale cotton farmer of Georgia, brought in the first bale of the new crop Thursday. The bale weighed 358 pounds and brought 23 cents per pound, being classed as good middling. It was sold at auction, and the bale later expressed to Savannah. Deal Jackson holds the record for the earliest bale of cotton marketed in Georgia each year for the past several years. He has made a study of conditions which will make his crop mature early and usually reaches the market first. He is a prosperous negro and a man of influence among the members of his race. He beat his last year's record by two days.

LOOKING FOR A MISTRIAL.

Lawyers Have Argued in the Famous Rawlings Case.

Valdosta, Ga., July 22.—Argument was continued this morning in the Milton Rawlings murder trial by Attorney Cooper, for the defense. The solicitor general will follow him.

There are many who look for a mistrial in the case.

Colonel Oscar M. Smith has concluded the first speech for the defense in which he handled the state's witnesses without gloves, ridiculing the idea that a parent who was mean enough to send his boys to commit a crime like the killing of the Carter children would employ a negro to aid them, Mr. Cooper followed him.

Both of the leading counsed requested the court not to push the argument into night as both were exhausted and the adjournment was taken.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollum & Co.

Negroes Ambush White Men.

Sumner, Miss., July 22.—Frank Allen and J. Barksdale were shot by two negroes, Will and Henry Harris, brothers, on the plantation of Tom G. James, at Sharkey, about 15 miles from here. Allen is seriously wounded, and may die. Barksdale is slightly wounded. The shooting was done with a shotgun, the negroes firing from ambush. A posse was quickly organized and pursuit given to the Harris'. In a runing fight between the posse and the negroes, one of the latter was killed and Hardin Edwards, a member of the posse, was severly wounded.

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Passenger Traffic Is Heavy.

Portland, Ore., July 22.—Advices received at the office of A. D. Charlton, assistant general passenger agent of the Northern Pacific show there are over 10,000 persons daily traveling on trains of that road to the transfer between St. Petersburg and Portland. The company has also been delivering travelers at the Yellow Stone park at the rate of 1,200 a day.

The Tampa Tribune is claiming a large share of the credit for Gainesville's securing the State University, and we suppose justly.—Citrus County Chronicle. The Tribune did its share and is all right.

Many people who come from the North to spend the winter in Florida bring as much malaria with them as any human being can carry at one load, and then go back in the spring when it is just beginning to steam out of the ground there when they get more than they can carry and declare that they got the whole "jag" in Florida.

Gainesville may thank her public spirited citizens for their untiring efforts toward securing the State University but she owes more to the practically solid backing she got from the country newspapers all over the State. These latter showed that public sentiment was for fair division, and so were overruled and set aside the plans of politicians.—Marianna Times-Courier.

EMERGENCY BANK RESERVES.

There have been several indications during the past five or six years that some of the New York banks possess more cash than they usually report in their official statements or in their weekly statements to the clearing house, says The Wall Street Journal One of the big banks, after a trusted employe had been detected in a theft of nearly a million dollars, announced that it kept a special fund as insurance against such dishonesty and the loss did not appear in either the clearing house or the official statements. A few years later the same bank increased the capital from $500,000 to $10,000,000 without calling upon its stockholders to pay in any money. A dividend of $9,500,000 was declared and the stockholders bought the stock with the dividend.

This was an exceptional case and the profits out of which the enormous dividend was paid came from stock investments and not from ordinary banking business. The example of this bank has been more generally followed than is known to the public, not so much in investment in securities as in setting aside out of earnings a fund for insurance against loss through bad debts and the action of dishonest employes. It is also claimed by some financiers that during the long period of low interest rates very few banks have made large earnings except by dealing in securities.

The National and State banking laws require all bank examiners to satisfy themselves that the capital and required surplus of a bank are not impaired and that available assets are equal to all liabilities. Stockholders are entitled to know how much of net earnings is passed to surplus account, how much is distributed in dividends and how much is retained in a special fund for insurance against losses, which fund does not appear in the published statements of the banks. It seems probable that the large stockholders do know but keep their knowledge to themselves.

There may be occasions when advantage would accrue to a bank possessing a large safety fund to let a portion of it appear in the weekly clearing house bank statements temporarily and to have it vanish after the purpose of its appearance had been served.

CUT THEM OUT.

Everything in the line of a public enterprise these days has its "press bureau," containing all sorts of methods to obtain publicity for the asking, the managers of these bureaus evidently being of the opinion that the press of the provinces will grasp for any sort of announcement that is sent in ready for the compositor, so that the editor can hie himself to some shady nook and fish all day, while the boy who sets the type stays at home and puts their effusions into type.

Theatrical managers in New York frequently send out a column or more announcing their plans, and many times the stuff finds its way into the small daily and weekly papers and they get that much advertising free. Nigger shows and prize fighters have their press bureaus, and only a few days ago there was sent through the mails to various papers the account of some monologue artist who had associated himself with some fly-by-night aggregation, in the hope that at least one out of five or less papers would give them from two to five dollars' worth of free advertising.

The sooner the papers of the country put a stop to filling up with such stuff, because it is addressed to them through the postoffice, and make an effort to publish the news—and home news—the quicker they will be recognized by advertisers who pay for what they get.

Fort Myers will have four candidates for mayor.

Down in Tampa last week one Harry Bomford, a local swell who had debauched the wife of his friend, Captain Parks, and then tried to kill the latter when Parks found him concealed in his home, was tried for assault to murder and the jury found him guilty of aggravated assault. The most aggravated assault in that transaction was committed by the jury in its successful effort to rape the blind Goddess of Justice.—Suwannee Democrat.

The hanging of the negro, David Mitchell, to take place at Starke on Friday, was postponed pending an examination as to his sanity. It was a great disappointment to many who went to see the execution, and the opinion was expressed that they might have hung him and had the investigation afterwards. But it may have been that at the present time they considered a season at Chattahoochee a worse punishment than hanging.

The less money some people have the greater their credit at some banks. An honest business man with something in sight to make good, can get a small loan, and the honest small concerns are often put out of business by the monopolies that frequently wreck the banks.

Trout Warnings.

In discussing whether or not trout hear a correspondent of the Amateur Sportsman asserts that they do not. In his opinion their sensitiveness to approaching danger is due solely to the vibration of the earth along the stream and the consequent vibration of the water. Thus persons standing perfectly still are able to talk and laugh with impunity, when the slightest bodily movement of either will frighten the shy fish.

HEROISM OF AUTHORS

BRAVE BATTLES WAGED AGAINST THE AGONY OF DISEASE.

Literature, as Well as Art and Science and History, Is Indebted to Pain and Worry and Suffering For Some of Its Choicest Gems.

There are heroes of the pen as well as of the sword, and the victories of the study are quite as affecting and memorable as those of the battlefield.

If a complete list of the fine examples of heroism of authors were compiled it would reach well out into the thousands and include a large number of illustrious names. In fact, it is said that few authors have done really great work except under adverse circumstances. Literature, as well as science, art and history, is indebted to pain and worry and suffering for some of its choicest gems.

There are few finer examples of the heroism of the study than that presented by Professor Finsen, the discoverer of the light cure for lupus. For the last twenty years of his too short life he suffered from painful diseases of the heart and liver, to which dropsy was superadded, and it was only by daily self denial and the strictest dieting that he was able to live at all.

Yet for all these years, lived in the very shadow of death and in constant suffering, he stuck bravely to his great life work, even studying his own diseases with the keenest attention and writing articles on them for medical journals. The last two or three years of his life were spent lying on his back, unable even to be carried to his beloved institute a few yards away, and yet the lion hearted scientist never relaxed for a single day his gallant fight for his fellow men against disease.

The heroism of the Danish professor suggests a similar brave battle waged by an English professor, J. R. Green, the historian, against disease and pain. It was in 1869, when the disease which had assailed him for many years finally prostrated him and when the doctors gave him no hope of living more than six months, that Green set to work to write his famous "Short History of the English People." Day after day he toiled at his task, holding desperately on to life and in a state of ceaseless pain and exhaustion, and so brave was the man's spirit that he actually prolonged his life for five years. Even he was bound to confess, "I wonder how in those years of physical pain and despondency I could ever have written the book at all."

General Grant's memoirs, which brought his widow the enormous sum of $500,000, were written under even more trying conditions than Green's history. In 1884, the year before his death, the ex-president found himself bankrupt through the failure of the Marine bank and face to face with the prospect of dying penniless and leaving his wife destitute. It was at this terrible crisis that he began to write the story of his stirring career. But the cup of his misfortune was not yet full. A cancer formed at the root of his tongue, and the gallant soldier was compelled to write day after day, suffering constant and severe agony.

Mrs. Browning, too, wrote most of her beautiful poems confined to a darkened chamber, to which only her own family and a few devoted friends could be admitted, in great weakness and almost uninterrmittent suffering, with her favorite spaniel as her companion.

The German poet Heine was another martyr and hero of the study. The last seven years of his life were spent on his "mattress grave," racked with such excruciating pain that he had to take doses of opium large enough to have killed several men in order to give him a few blessed hours of freedom from it. Through all these years of torture he not only bore himself with a noble resignation and cheerfulness, but produced many of his finest and most finished works, including his "Last Poems and Thoughts" and his "Confessions."

Sir Walter Scott's heroic struggle with misfortune and failing health during the closing years of his life is perhaps too well known to call for more than mention. After the commercial crash came which left him crushed with debt and with shattered health he set to work "with wearied eyes and worn brain" and toiled for years, often as much as fourteen hours a day, until the end came and with it the lifting of all burdens, including that of his debts, every penny of which his monumental toil had paid.

In the list are also Frank Smedley, who wrote his book on "a bed of anguish;" Edna Lyall, who kept death at bay by her brave spirit and busy pen, and Clark Russell, who set a magnificent example of patience by his industry when racked with rheumatism. It is also said that much of Sir Arthur Sullivan's sweetest music was distilled from pain.—New York Herald.

TIGER HUNTING.

Luring the Fierce Animals by Imitating a Monkey.

To call a tiger the proceeding was as follows: The mikir, having first ascertained that a tiger was in the neighborhood, would climb into a well branched, leafy tree situated near where he supposed the tiger to be, and after hiding himself among the branches as best he could would commence to imitate the chattering of a monkey and break and drop twigs in the way that monkeys do.

Then he would let fall to the ground a bundle of rags weighted so that the thud when it struck the ground would sound as if a baby monkey had tumbled down from the tree, and at the same time would imitate the supposed baby monkey cries. This would be the supreme moment, for if a tiger were near it would often spring out in the hope of snapping up such a dainty morsel as a young monkey, and then a bullet from the gun of the hidden mikir might find its billet in the tiger's body. By this means the mikir was said to have killed a considerable number of tigers, and certainly the man's power of mimicry was wonderfully good.

The call for deer was of an entirely different nature, the sound imitated being the cry of a fawn, and as this cry sometimes attracted tigers, too, it had to be adopted with caution, because it was used only in open grass land, from which the caller would not have had much chance to escape were a tiger suddenly to put in an appearance.—London Field.

THE MAD DOG FALLACY.

With Some Suggestions on How to Treat a Bite.

In all my own experience with dogs I have not only never seen a "mad dog," but have never known a dog owner—and by that I mean a man who has had experience in keeping dogs—who has seen one. If, then, rabies is so exceedingly scarce, hydrophobia becomes really an impossibility, and the fear of it should be dismissed without a thought.

A person may get dog bitten; but, in the language of the New York tough, "Forget it." If it is a bad bite it may twitch later on, and you may begin worrying, so it is a good plan to get rid of the twitching or throbbing in order to forget. I have been bitten so often that I think no more of it than a mosquito bite, and this is what I do:

If it is on the hand I put it under the faucet and wash thoroughly, with the object of cleaning the wound and preventing inflammation from any dirt or foreign substance. While doing this some one is getting the bicarbonate of soda and some clean rags or lint. With water a cream paste of the soda is made sufficient to plaster the wound well; then, putting some on a rag, it is applied to the wound and bound up. If in the course of an hour or more the application seems to be drying, a little water is poured on the bandage to soak through to the soda or the hand dipped in water.—James Watson in Country Life In America.

Fairy Rings.

Probably we have all seen in the fields or on the edge of the woods that circle called the fairy ring. Before fairy folk came to be doubted it was firmly believed these rings were the dancing ground of the fairies. In the moonlight the spirits danced, wearing down the grass under their feet. At least so our grandfathers said, but we must take science's simple explanation of it. A fungous plant will soon exhaust all the fungous food from the soil beneath it, so that only the spores which fall outside this barren spot will take root and flourish. So the ring is always widening outward, forming a perfect circle unless something interferes with it. The rings are abundant in wet weather, of a buff color or reddish.—St. Nicholas.

Evidence.

A green subaltern who was smoking while on duty was reminded by a sentry who had seen many years' service that it was against the regulations to smoke near his post, and he advised the subaltern to throw his cigar away. He did so and went on his rounds. The soldier then picked up the cigar and was enjoying it quietly when the subaltern returned.

"Why, how is this?" he asked. "I thought no smoking was allowed near your post?"

"That's true," replied the sentry. "I'm merely keeping this alight for evidence against you in the morning."—Harper's Weekly.

The Diamond Cure.

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough, for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief, and effected a permanent cure." DID HER BIDDING.

His Brave Attempt to Pass For an Old Married Man.

"Now, Henry," said the bride, "I want you to understand distinctly that I do not wish to be taken for a bride. I am going to act exactly as if I were an old married woman. So, dearest, do not think me cold and unloving if I treat you very practically when there is anybody by."

"I don't believe I can pass for an old married man," said Henry. "I am so fond of you that I am bound to show it. I am sure to betray myself."

"No, you mustn't. It's easy enough, and I insist that you behave just like all old married men do. Do you hear?"

"Well, darling, I'll try, but I know I shall not succeed."

On the first evening of their arrival at their hotel the bride retired, and the groom fell in with a whist party, with whom he sat playing cards till 4 o'clock in the morning. His wife spent the weary hours in weeping.

At last he turned up and met his grief stricken bride with the hilarious question:

"Well, ain't I doing the old married man like a daisy?"

She never referred to the subject again, and everybody in future knew that they had just been married.

Song of the Flame.

Fire can be made to sing. A writer says: "Take a lighted candle and blow gently against the flame. You will hear a peculiar fluttering sound. The fluttering sound is fire's first attempts at music. Instead of the unsteady breath of our lips let us employ the steady blast of a blowpipe. Instead of the pale and flickering light of a candle let us use the bright and ardent glare of a chemist's lamp. When you have a lamp and blowpipe you can make fire sing in earnest."

Indigestion,

With its companions, heartburn flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle. Sold by W. M. Johnson.
